## EDITORIAL COMMENT.

### THE "MAGAZINE SUBJECT-INDEXES."

Our series of Magazine Subject-Indexes is meeting with such a hearty response from libraries all over the country, that we confidently believe it will soon be possible to print the Bulletin of Bibliography on the heavy paper which we formerly used, but which, when the number of pages was increased, had to be given up on account of the extra expense of mailing.

We enumerate below our series of indexes so all may be sure they are receiving them:—

(a) **The Magazine Subject-Index,** Vol. 1, covering 79 sets down to Dec. 31, 1907. 278 pp., 8vo, cloth, $3.00 net; half morocco, $4.00 net. (Add 25c for delivery to any part of United States.)

(b) **Bulletin of Bibliography and Magazine Subject-Index.** $1.00 per year, 25c per number, quarterly. (Two copies to libraries subscribing.) Subscriptions begin with current issue; back numbers as far as in stock, 25c each. This contains bibliographical lists and articles useful to libraries and a quarterly continuation of the Magazine Subject-Index.

(c) **The Annual Magazine Subject-Index** for 1908. (Ready in Feb., 1909, being the first supplement to Magazine Subject-Index, vol. 1.) Cloth, 8vo, $3.00 net. (*Special price to paid subscribers to the Bulletin of Bibliography,* $2.00 *net.*) Delivery extra. This will be a cumulation in one alphabet of the index matter in the four issues of the Bulletin of Bibliography for 1908, with the addition of an index to some fifteen or more State Historical Society proceedings and collections, thus making it an index to forty or more historical periodical publications, as well as an index to over 50 other serials for 1908, covering a general range of subjects.

This series of indexes covers a field not touched by any general periodical index and will contain no periodical included in either *The Readers' Guide,* or *Library Index.*

Please send us your advance order for the 1908 annual, and subscription to the Bulletin of Bibliography,—together $3.00.

### ECLECTIC LIBRARY CATALOG.

The H. W. Wilson Company, publishers of the *Readers' guide to periodical literature,* have commenced the issue of a quarterly index to a selected list of twenty periodicals. This is designed especially for small libraries. It also includes a subject-index to recent government publications useful in a small library. It will be $4.00 a year, or the annual number, $2.00.

### INDEX TO LIBRARY REFERENCE LISTS.

In this issue we print the first half of "An Index to library reference lists for 1907 and 1908," which will form a supplement to, and bring down to date, the five-year index to this material which was published in the Bulletin for January and April, 1907, and also issued in separate pamphlet form, 32pp., 25c.

### GHOST STORIES.

We shall print in our January issue a Bibliography of Ghost Stories. It covers this interesting field more fully than any list yet issued.

### MAGAZINE BACK FILES AND SETS.

Our advertising pages this month should be examined carefully. The results of The Boston Book Co.'s summer's work in completing sets are now available. It is the best time of year to buy such material. They have hundreds of other sets in stock, complete or nearly so.

## PERIODICAL INDEXES TO SPECIAL SUBJECTS.

The time seems to be rapidly approaching when each special subject will have its own periodical index. The technical journals have for a long time been indexed in the "Engineering Index," now an annual, with monthly continuation in *The Engineering Magazine*. Recently *The Engineering Digest*, monthly, has taken up an almost similar index, which is regrettable inasmuch as it is always a pity to do the same work twice. There is also *The Technical Index*, London, covering this field. The firm of Stone and Webster, Boston, print under the title "Current literature references" an index to such articles in upwards of one hundred periodicals and transactions bearing upon their special field of work,—electric and gas lighting, electric railways and water power development.

An *Index to legal periodicals and law library journal*, quarterly, with a promised annual cumulation, has been started in Chicago. Two numbers have been published, covering thirty-three titles.

*Library Work*, quarterly, Minneapolis, covers the field of library economy as far as articles have appeared in the English language. It is to be hoped that such a compact subject will later be more thoroughly covered by the inclusion in *Library Work* of French and German references.

An *Index to current military literature* has for some years been published as a department of the *Journal U. S. Artillery*, and since 1903 this has formed a separate supplement. It covers about one hundred and twenty-five different periodicals throughout the world.

Under the rather inadequate heading "New publications," the *Journal of Political Economy*, Chicago, for July, 1908, begins the publication of a monthly department "which will endeavor to cover all current literature of economic interest in books, government publications and periodicals." The list of periodicals examined for material is a representative one of about eighty-five titles. The articles are grouped alphabetically by authors under twenty subdivisions of the subject covered.

The *American Political Science Review* gives space in each quarterly issue to an "Index to recent literature,—books and periodicals." This covers articles on administrative, constitutional and international law, colonies, jurisprudence and political theory.

The periodical literature of "International law" is indexed each quarter in the *American Journal of International Law*, while magazine articles on forestry are noted in each issue of the *Forestry Quarterly*.

Thus we find that in some serial, the periodical literature of each subject is more or less thoroughly covered. "Education" may be found in the Annual Bibliography which for the past nine years has been compiled by J. I. Wyer, Jr., State Librarian of New York, and printed formerly in some number of *Educational Review*, this year in "Bulletin no. 3, 1908", of the U. S. Bureau of Education. "Psychology" is indexed in the annual *Psychological Index*, published in connection with the *Psychological Review*. "Medicine" is thoroughly accessible through the *Index Medicus*.

We are not aware that any complete list of these special indexes has been issued. It would be a most useful tool in all libraries and should any of our readers have prepared such a list we would be very glad to publish it in the Bulletin of Bibliography.

**Explanatory.** Inclusive pages of articles indexed are given, making possible an accurate estimate of length. The volume month and year are also given.

il. means illustrated. por., pors., mean portrait, portraits.

If an article concerning a person is marked "il." it means that among the illustrations there is no portrait, while "por." or "pors." would show that the only illustrations were portraits.

A colon after an initial designates the most usual given name, as per rule adopted by the A. L. A., and by both the *Reader's Guide* and *Library Index*.

Continued stories and fiction by notable writers have been included under name of author.
